think probably my guess would be, and I, you know, I certainly could be wrong on this, I don't mean to speak for the county assessors, but there's always the chance that they would choose to interpret that as if the Legislature does not classify the property. They're going to broadly interpret that and it will put the tax on everyone. One of the issues comes up about being on a level playing field and the question on that is, if we get into the fair market value, would they then be on the level playing field? But I guess my concern is, is if they are not exempted out or if they're not classified or made to pay payment in lieu of taxes, then they will...they will be put on the local level, which seems to be we might be opening up...ourselves up to quite a few lawsuits over the question of that. We bring up a variety of issues. Senator Smith has brought up the Mahoney Park. The sky boxes at the University of Nebraska, those will be leased. If you look at any of the agricultural land that is being leased that is not having to be restricted to alfalfa, if they do the bids, all of those come into question. So I would guess that we're probably going to get into further discussion about this, but I certainly think that a lot of these issues probably need to be answered and addressed, at least to make me feel easier in my mind. Thank you.

SENATOR CUDABACK: Thank you, Senator Chris Peterson. Senator Smith, you're recognized to speak on the committee amendments.

SENATOR SMITH: Thank you, Mr. President. I'm sitting here going over all of my notes and come up with even more questions, if Senator Wickersham would yield.

SENATOR CUDABACK: Senator Wickersham, will you yield?

SENATOR WICKERSHAM: Yes.

SENATOR SMITH: The University of Nebraska has research centers around the state and...

SENATOR WICKERSHAM: Um-hum.

SENATOR SMITH: ...it's common knowledge that they work with the private sector to complete projects that would enhance the
